

You are going to listen to a programme about how the sun can be used to solve energy problems. First you will have 45 seconds to study the task below, then you will hear the recording twice. While listening, choose the correct answer (A, B, C or D) for questions 1-7. Put a cross (☒) in the correct box on the answer sheet. The first one (0) has been done for you.

After the second listening, you will have 45 seconds to check your answers.

Solar-powered lamp and charger
