The answer is in paragraph E: "This hospital was designed with patients, staff, and the environment in mind. In addition to multiple staff rooms to eliminate noise and 'stuffy' areas [...]." The hospital therefore has given special care to the staff rooms.

1

The answer is in paragraph F: "Not only does this 160-acre hospital campus have aesthetically pleasing buildings on the exterior as well as a shopping mall-like interior, but it is also LEED (Leadership in Energy and Environmental Design) Certified for its use of natural light for heating and cooling, rainwater collection and filtration system, recycling programs, and more." The hospital therefore meets recognized environmental standards.

2

The answer is in paragraph B: "Hirslanden also invests heavily in the latest medical technologies and established Switzerland's first CyberKnife radiosurgery unit." The Klinik Hirslanden therefore spends a lot of money to provide up-to-date medical treatment.

3

The answer is in paragraph A: "The setting of the hospital adds to its appeal, as it sits along the Pacific Ocean in one of Panama City's most prestigious neighborhoods." The hospital is therefore located in an attractive part of a town.

4

The answer is in paragraph E: "[...] the hospital was also designed around the natural habitat of endangered birds that call the area home. This included non-reflective exterior glass, investigations in flight patterns, and altering helicopter routes around the birds' natural flight paths." The hospital therefore takes the well-being of animals into account.

5

The answer is in paragraph C: "The interior design also allows them to use innovative medical equipment like completely film-less digital imaging centers and real-time video conferencing equipment to connect with other physicians and specialists inside or outside of CMC." CMC therefore allows doctors to communicate using the latest technology.

6

The answer is in paragraph A: "Affiliated with Johns Hopkins Medicine International, this hospital has been recognized as one of Central and South America's most advanced medical centers and is a top destination for Medical Tourism." The hospital therefore attracts foreign patients in search of treatment.

7

The answer is in paragraph B: "With a program called Hirsland Privé, the hospital provides a Guest-Relations service which offers patients the services of an attendant to care to their personal concerns." The Klinik Hirslanden therefore provides a person who deals with individual requests.

8

The answer is in paragraph D: "Located in a desert setting near Zion National Park in Utah, the architects and designers of this hospital had to take a lot into consideration to avoid heat gain, like building orientation and sun-shading." The hospital therefore required special measures to keep the interior cool.
